GAS Turbine Combustion, Second Edition Arthur H. Lefebvre 1998-09-01 This revised edition provides understanding of the basic physical, chemical, and aerodynamic processes associated with gas turbine combustion and their relevance and application to combustor performance and design. It also introduces the many new concepts for ultra-low emissions combustors, and new advances in fuel preparation and liner wall-cooling techniques for their success. It details advanced and practical approaches to combustor design for the clean burning of alternative liquid fuels derived from oil shades, tar sands, and coal. Additional topics include diffusers, combustion performance fuel injection, combustion noise,

heat transfer, and emissions.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Airstream Patrick Foster 2016-05-02 Iconic, aluminum-bodied Airstream trailers have been around for 85 years--get the full story in this photo-rich book. Airstream is America's best and oldest manufacturer of travel trailers, and those retro silver coaches are iconic on America's highways. Representative of the age-old desire to explore, these trailers are unmistakable in design with distinctive aerodynamic rounded lines and an aluminum outer skin. *Airstream: America's World Traveler* celebrates the eight decades since the first Airstream graced America's highways. Airstream chronicles the fascinating history of Airstream trailers through a detailed history, stories, and beautiful photography. Although its roots stretch back to 1926, the first Airstream-brand trailers were introduced in 1936, just as America was emerging from the dark days of the Great Depression. Of the 400 travel-trailer manufacturers of that era, only Airstream survived. Dubbed the "Airstream Clipper" after the first trans-Atlantic seaplane, the 1936 Airstream featured a unique lightweight aluminum body that cut down on wind resistance, improved fuel efficiency, and made for easier towing. It slept four, carried its own water supply, was fitted with electric lights, and cost \$1,200. The Airstream provided travelers with a way to see the world at their leisure and in solid comfort. It was the perfect vehicle for a country emerging from a long struggle. In the eight decades since that first Airstream, the company has produced some of the finest trailers in the world and gained a worldwide reputation as the Rolls-Royce of travel trailers. The Airstream story is one of travel, adventure, and memories that last a lifetime.

Streamline Aluminum Trailers Daniel Hall 2017-09-15 The iconic shape and appearance of a streamline aluminum trailer sitting at a campsite or being pulled down the highway has captivated collectors and vacationing hobbyists for nearly 90 years. During this time, the exterior appearance of the trailer has changed very little, so recollections can range from seeing a 1937 Dodge Pickup to a 1969 Impala hauling one of these beauties. Today, restored rarities from Airstream, Silver Streak, Boles Aero, Clipper, and Spartan can command as much as \$100,000 in the marketplace. These trailers have become symbols of American pop culture for several generations. Until now, very little information has been available to help you when it comes to restoring and updating one of these trailers. Daniel Hall, of the vintage restoration company Camper Repairadise, addresses all items of streamline trailer restoration thoroughly in this one-stop-shopping book. Details on your trailer and how to restore it are covered from trailer tongue to trailing bumper. Key restoration components including chassis, floor, exterior/interior skin, electrical elements, insulation, doorjamb refabrication, LP, plumbing, and polishing are all covered comprehensively in a visual, step-by-step format. Whether you're a collector car enthusiast, resident of a trailer campground, or a vacationing addict, owning this restoration guide will be an essential tool in keeping your trailer active, updated, and in immaculate condition. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Vintage Camper Trailers Paul Lacitinola 2016-07-21 Vintage camper trailers are a unique symbol of midcentury America that resonates with many people. This book introduces many of those people, along with the trailers they've lovingly maintained or restored. It includes hundreds of photographs of everything from fancy and comfortable trailers designed for glamping (glamorous camping), to trailers handed down through families across generations, and even entrepreneurs who have transformed their trailers into vending booths. Paul Lacitinola enjoys everything about vintage camper trailers, including rescuing, restoring, and rallying. In 2011, he began publishing the first U.S.-based magazine for collectors, restorers, and admirers of American-made camper trailers, Vintage Camper Trailers, which now has thousands of subscribers in more than a dozen different countries. He lives in Elverta, California.
